

The background of the entire image is a repeating pattern of blue and white diamonds. The diamonds are arranged in a grid, with blue diamonds on the top-left and bottom-right positions, and white diamonds on the top-right and bottom-left positions. The text is centered in the lower half of the image.

Illustrator

Three reference views of a TI-84 Plus calculator: frontview, right side, back view.

Illustrator Line Drawing

Photoshop

Three rendered views of the TI-84 Plus calculator. Primary view is the front view that shows a graph on the screen.

Axure

Interface prototype with three different types of interaction. One is to turn the calculator on/off, another is to view the different modes and cycle through them, and another is to do a simple addition problem.

AfterEffects

Video showing how the device interface works, and which buttons to press in order to trigger the appropriate interaction.
